THE UNIVERSITY OF ALBERTA STAFF BULLETIN EDMONTON 7, ALBERTA SEPTEMBER 25, 1969

LEADING HEART SURGEON TO SPEAK HERE

The first Canadian doctor to perform a heart transplant operation will speak at the University on Friday, October 3. PIERRE GRONDIN, Head of the Department of Cardio-Vascular Surgery and the Department of Experimental Surgery at the Montreal Heart Institute, will deliver the year's Mousseau Memorial Lecture in Lecture Theatre 2-117, Clinical Sciences Building, at 8:30 p.m. on Friday, October 2.

The L. P. Mousseau Memorial Lectures are sponsored annually by the medical staff at the Edmonton General Hospital and The University of Alberta. They honor LOUIS PHILIPPE MOUSSEAU, for many years chief surgeon and chief of the medical staff at the Edmonton General Hospital. Dr. Mousseau was also a member of the Board of Governors of the University and a lecturer at the University.

Dr. Grondin performed Canada's first heart transplant on May 31, 1968, on Albert Murphy, 59. His next patient was Gaetan Paris, a 49-year-old electrical designer, who received his new heart in an operation on June 3, 1968.

In addition to heart transplants, Dr. Grondin acts as operating room supervisor for other heart operations performed by surgical teams at the hospital. He has a private practice and presents numerous lectures on heart surgery.

Born in Quebec City in 1925, Dr. Grondin graduated from Laval University in 1945, and received his honors medical degree from Laval in 1951. He worked as a general practitioner in Trois Rivières before taking

post-graduate training in surgery at the University of Pennsylvania. He became chief resident in general surgery at a hospital affiliated with the University of California at Los Angeles. In 1959, he returned to Trois Rivières.

In 1961, Dr. Grondin went to Houston, where he worked at Methodist Hospital with MICHAEL E. DEBAKEY, well-known heart surgeon who was the Mousseau Lecturer in 1968. Dr. Grondin returned to Montreal in 1963.

Dr. Grondin is a Fellow of the Royal College of Surgeons of Canada and the American College of Surgeons. He was the founder and is an active member of the Society of Thoracic Surgeons, and is an associate member of the American Association of Thoracic Surgery. He is also a thoracic cardio-vascular consultant at several other Montreal hospitals.

COUNCIL ENDORSES COMMITTEE REPORT

At a special meeting on Monday, September 22, the General Faculty Council endorsed the University Planning Committee Report concerning the "University of Alberta Long Range Development Plan" prepared by A. J. DIAMOND and B. MYERS, and accepted the plan as a flexible working guide for the growth and development of The University of Alberta campus. The motion was carried by a vote of 33 to 0 for endorsement and acceptance. Two abstentions were recorded.

Four major considerations were embodied in the report:

1. The Committee accepted the student population forecast of 27,000 to 30,000 on the present campus, including North Garneau, as a basic assumption underlying the Report;

2. The Committee wished to stress the fact that the space estimates used in the report are tentative and were not being approved.

3. The Committee agreed that the concept of the internal climate-controlled pedestrian easeway, while acceptable in principle, must be implemented with due concern for the related costs and impact on educational goals.

4. The Committee's acceptance of general locations of buildings did not imply approval of specific sites for particular buildings.

ADVISORY BOARD APPOINTED

The Vice-President, Academic, has appointed a newly-constituted Advisory Board for the purpose of making recommendations and providing advice respecting the development of the Centre for the Study of Mental Retardation, an interdisciplinary research institute sponsored by the Canadian Association for the Mentally Retarded and The University of Alberta. The composition of the Board reflects representation from eight interested departments across the campus.

Chairman—MEYER HOROWITZ, Professor and Chairman of the Department of Elementary Education.

Secretary—DONALD R. CAMERON, Professor of Educational Psychology and Director of the Centre.

Members—PATRICIA L. AUSTIN, Professor of Physical Education; PETER BOWEN, Associate Professor of Human Genetics in the Department of Paediatrics; DONALD J. CAMPBELL, Associate Professor of Clinical Pathology; EDGAR HOWARTH, Professor of Psychology; GEORGE MONCKTON, Associate Professor of Medicine, Department of Neurology; GEORGE W. R. WALKER, Professor of Genetics.

Ex-officio Member—G. ALLAN ROEHER, National Executive Director of the Canadian Association for the Mentally Retarded.

RHEUMATIC DISEASE UNIT PREVIEWED

The Rheumatic Disease Unit at the University was opened to members of the Canadian Arthritis and Rheumatism Society, Alberta Division, on Thursday, September 25. The preview of the Unit, which recently opened to provide treatment and patient care for persons afflicted with rheumatic diseases, was held in conjunction with the annual meeting of the Alberta Division of the Society.

The Unit is a co-operative program involving The University of Alberta, the University of Alberta Hospital, the Alberta Health Care Insurance Commission and the Canadian Arthritis and Rheumatism Society.

SPECIAL CONVOCATION

A Special Convocation for the installation of MAX WYMAN as President of the University will be held Monday, October 6, at 8:30 p.m. in the Northern Alberta Jubilee Auditorium. An honorary LL.D. will be awarded to former Dean of Medicine, JOHN W. SCOTT.

Faculty, students, alumni, and the public are invited, and tickets may be obtained from the Registrar's Office.

"A primary objective of the society is to establish units such as this at hospitals where there are medical schools," said JOYCE GILFILLIAN, Executive Secretary of the Alberta and Saskatchewan divisions.

In Edmonton, this places the unit in a hospital which is also used for teaching and research purposes. "We hope that it will lead to the training of more rheumatologists," Miss Gilfillian added.

"In 1948, there were only five rheumatologists in Canada. Through help from the society which has provided fellowships we now have more than 100. However, there is still a shortage. Saskatchewan, for instance, has only one rheumatologist."

GRAIN ACCEPTED AS TUITION

The Board of Governors recently authorized the payment of tuition fees by means of delivery of feed grain to the University, subject to the following requirements:

1. The privilege is restricted to students who would otherwise be unable to finance their University education.
2. Only wheat, oats, and barley can be accepted.
3. Grain will be accepted by the University at the going farm price for delivered grain to the extent of University requirements for feed grains.
4. The grain must be delivered to the University Farm at times and in quantities and qualities to be specified by the University.

The requirements are necessary because of the University's limited need for feed grains and its desire to insure that the program will meet the needs of the students.

PEOPLE

K. L. MEHRA, Associate Professor of Mathematics, and E. S. KEEPING, Professor of Mathematics, chaired separate sessions of contributed papers at the annual meeting in New York of the Institute of Mathematical Statistics from August 19 to 22. Dr. Keeping was a member of the Program Committee responsible for arrangements.

FRANCIS THIEMANN, Associate Professor of Educational Administration, attended the Twenty-third annual National Conference of Professors of Educational Administration in San Diego from August 20 to 26. Dr. Thiemann chaired the Administrative Theory sessions and presented a paper on "Power and Consensus: A Report of a Study of Real and Perceived Power in a Consensus Organization."

MAXWELL HOWELL, Professor of Physical Education, completed his second doctoral degree at the University of Stellenbosch, South Africa. His thesis is "An Historical Survey of Sport in Society."

J. A. JACOBS, Killam Memorial Professor of Science, and GORDON ROSTOKER, Assistant Professor of Physics, attended the special scientific sessions of the International Association of Seismology and Physics of the Earth's Interior; and the International Association of Geomagnetism and Aeronomy in Madrid from September 1 to 13. Dr. Jacobs was Chairman of Commission IV (Magnetic Variations and Disturbances) of the IAGA, and gave an invited paper on "Origin of the Earth's Core."

SHIRLEY M. STINSON, Associate Professor of Nursing, conducted a workshop on "The Management of Nursing Service—Problems, Possibilities, and Priorities," for senior nursing personnel at the Foothills Hospital in Calgary on September 4 and 5.

Staff appointments

APPOINTMENTS WITHOUT DEFINITE TERM (TENURE)

The following are all effective July 1, 1969.

AGRICULTURAL ENGINEERING

H. P. HARRISON, Associate Professor
T. A. PETERSON, Assistant Professor

ANTHROPOLOGY AND EDUCATIONAL FOUNDATIONS

A. D. FISHER, Assistant Professor

ART

D. B. BENNETTS, Associate Professor
L. D. CANTINE, Assistant Professor
R. A. DAVEY, Professor
H. J. DOW, Associate Professor
R. W. SINCLAIR, Assistant Professor

BIOMEDICAL ENGINEERING

T. R. OVERTON, Associate Professor

BUSINESS ADMINISTRATION AND COMMERCE

D. H. BENT, Associate Professor
L. S. ROSEN, Associate Professor
E. S. SHIHADDEH, Associate Professor

CAMPUS DEVELOPMENT

W. A. HILLER, Director

CENTRE FOR THE STUDY OF MENTAL RETARDATION

J. P. DAS, Associate Professor

CHEMICAL ENGINEERING

A. E. MATHER, Assistant Professor
F. A. SEYER, Assistant Professor

CHEMISTRY

J. E. BERTIE, Associate Professor
J. HOOZ, Assistant Professor
R. B. JORDON, Assistant Professor
J. A. PLAMBECK, Assistant Professor

CLASSICS

G. HERMANSEN, Associate Professor

VISITORS

The Department of Mathematics has played host to several distinguished visitors during the month of September. PETER ROQUETTE of the University of Heidelberg spoke on "Some Questions in p-adic Analysis" on September 22. JOHANN LEICHT, also from the

University of Heidelberg, is visiting the Department for six weeks, beginning September 1. Dr. Leicht has been giving a series of lectures on cohomology of groups on Tuesdays and Thursdays. A. M. OSTROWSKI of the University of Basel visited the Department from September 14 to September 28, giving four lectures in a special seminar on "Computational Newton's Method."

G. ALEXITS of the Hungarian Academy of Sciences in Budapest is Visiting Professor in the Department for five months. Dr. Alexits is lecturing on orthogonal functions.

EMMON BACH, Professor of Linguistics at the University of Texas, gave an invited lecture on "The Current Crisis in Syntactic Theory" on September 15. Dr. Bach was a guest of the Department of Linguistics. He is the author of *An Introduction to Transformational Grammar* and, with ROBERT T. HARMS, is co-author of *Universals in Linguistic Theory*.

SEMINARS AND COLLOQUIA

DATE	DEPARTMENT	SPEAKER
August 19	McEachern Laboratory and Biochemistry	L. W. BROX, Albert Einstein College of Medicine, Bronx, New York
August 20	Biochemistry	ARUN K. CHAKRAVORTY, University of British Columbia
August 26	Biochemistry	E. N. MASLEN, University of Western Australia
August 27	Biochemistry	K. J. WATSON, University of Copenhagen, Denmark
Sept. 11	McEachern Laboratory and Biochemistry	JAMES L. ROBINSON, Institute for Cancer Research, Philadelphia

COMING EVENTS**TUNDRA CONFERENCE**

A four-day conference on Productivity and Conservation in the Tundra will be held on the campus on October 14, 15, 16, and 17. The theme will be problems of developing northern regions of the world and the effects development is having on the tundra.

A number of distinguished speakers are expected from Russia, Sweden, Switzerland, the United States, Denmark, and Canada. The guest speaker at the conference

banquet on Thursday, October 16 will be A. W. R. CARROTHERS, President of The University of Calgary, who will make "some Comments on Human Resources in the North."

The conference is being sponsored by the Canadian Committee of the International Biological Program, which receives support from the National Research Council; the Federal Department of Indian Affairs and Northern Development; the International Union for the Conservation of Nature; Atlantic-Richfield; and The University of Alberta.

All conference sessions will be held in Lister Hall. The City of Edmonton will host delegates at a luncheon, and the provincial government will be host at the wind-up banquet at the Coachman Inn on Friday, October 17.

NOTICES

WOODROW WILSON NATIONAL FELLOWSHIPS

Nominations for Woodrow Wilson Fellowships and Designations are invited from the faculty. The fellowships are open to men or women for first year graduate study in the Humanities, the Social Sciences, the Natural and Physical Sciences, and Mathematics, and are intended primarily for students interested in teaching at the college level.

The fellowships carry a value of \$2,000 plus tuition, with allowances for dependent children.

Nominations must be made by Department Chairmen to reach Group XIV Regional Office, Pullman, Washington, by October 20, 1969.

CRITICAL SEMINARS IN FILM

Registrations are still being accepted for the Critical Seminars in Film offered by the Department of Extension.

This year, experimental and art films by well-known independent producers will be

shown. After each showing, discussion will be led by members of the Departments of Art and Extension.

Films to be shown include "Peyote Queen," "Night and Fog," "Malcolm X," "La Chinoise," and "Un Chien Andalou."

The presentations will be bi-weekly, commencing October 8. The fee is \$17. Additional information may be obtained at 439-2021, extension 47.

INTERNATIONAL FOLK DANCING

International Folk Dancing is open to everyone on the campus on Fridays at 8 p.m. in the Dance Studio of the Physical Education Building. Instruction is provided. Dancers are asked to bring soft-soled shoes. For further information, call 439-4018.

SCOTTISH DANCING

The University Scottish Country Dance Club will commence a series of weekly classes for beginners at 8 p.m. on Tuesday, September 30 in room 142 of the Students' Union Building.

FACULTY CURLING

On Thursday, October 2, at 4 p.m., there will be a meeting in the Faculty Club for all faculty and staff members interested in curling in the Faculty Curling League this winter. Persons wishing to curl but unable to attend the meeting should call JIM GALLAGHER at local 4270 or local 3678.

Curling will begin on Tuesday, October 14. Draw times will be 5, 7, and 9 p.m. on Tuesdays. The fee is \$20 per person.

GYMNASTIC PROGRAM

A Saturday morning gymnastic program for children of faculty will commence October 4, with 10 sessions running until December 6. The sessions will be held in the gymnastic room of the Physical Education Building. The number of places is limited and the program will be filled on a "first come, first served" basis. The fee is \$5 per child. Further information and

registration forms may be obtained from G. M. ELLIOTT, local 3366.

COURSE GUIDE

The Students' Union Course Guide is still available at the Information Desk in the Students' Union Building and in the University Bookstore.

The 1969 Course Guide contains evaluations of courses and professors in the faculties of Agriculture, Arts, Business Administration and Commerce, Education, Engineering, and Science.

CHAMBER MUSIC SOCIETY

Season tickets for the 1969-70 series of the Edmonton Chamber Music Society are available by mail from MRS. H. VITOVEC, 12019-63 Avenue, or at Room 348 of the Arts Building. Adult memberships are \$10; student memberships are \$4.

The Society offers six concerts: on Wednesday, October 15, the Philadelphia String Quartet; on Thursday, November 6, the Brussels Chamber Orchestra; on Wednesday, February 11, The University of Alberta String Quartet; on Wednesday, March 4, the Zurich Chamber Octet; on Wednesday, April 5, the Alma Trio; and, on Wednesday, April 29, the Amadeus String Quartet.

PERSONAL NOTICES

Staff members may forward notices to reach the Editor by 9 a.m. the Friday prior to publication. They must be typed, and not exceed 35 words including heading. Advertisements received will be published at the Editor's discretion.

FOR RENT—Large, furnished, fully-equipped two-bedroom house in Windsor Park, very near campus and park. Suitable for responsible, reliable adults. No children. Visiting professor preferred. Available in October for four or five months, 433-4358.

FOR SALE—Four-bedroom house in Landsdowne. \$46,500 with 7¾% mortgage. Family room with fireplace. Dining room. 434-9855.

TYPING—Will type theses, term papers, etc., for students. 35¢ per full page; 5¢ per carbon copy. ELAINE DECK, 432-6284, days; 489-2119, evenings.

TYPING—Students with typing to be done may call Mrs. Eggen, 434-0809.
